Spontaneous, Artistic & Unforgettable

Newborn Portrait Sessions

The 10-day period after the birth of a child is the prime time to capture a baby's portrait before they begin to mature and quickly change as they grow. HHP uses patience, gentleness and a special knack in conjunction with props, lighting and backdrops for these sessions. It is my personal mission to ensure that this is a positive experience for you, with a session designed to meet the needs of each baby. I promise to create a special experience with quality photos and memories to last a lifetime.
